PREMIER
BODY AND LASER

**The Inland
Northwest's
Laser Tattoo
Removal
Specialists**

forever no longer

Lighten that tat before the cover up

Call or Text: (509) 904-9000

Technology meets medicine

**Laser tattoo
removal is a
medical procedure
to be completed
under the
supervision a
physician.**

Safe for your skin, we use photomechanical energy to shatter the bonds between the tattooed ink particles. Your own white blood cells remove the remaining ink.

Cutera
Enlighten III

- Fewer treatments necessary

Utilizing the latest in both nano- and pico-second pulsewidth technology we are able to break up ink, efficiently.

- Targets all colors

The Enlighten 3 can target all colors of the rainbow. This is a game changer for anyone looking to remove or lighten their tattoos.

- Free pain relief

For patient comfort, we offer medical grade topical numbing before every laser treatment. We also use a state-of-the-art cooling device during treatment.

- Specialized practitioners

No other clinic does as many laser tattoo removal treatments in the Inland Northwest. Our technicians are experts you can trust.

- Concierge Medicine

Our in-house physician will provide care and guidance in the uncommon event health complications arise due to laser treatment.

- Complimentary consultation
